

```
#include <stdio.h>

int main() {
    int arr[1000], n, i;
    printf("Enter the size of array: ");
    scanf("%d", &n);
    printf("Enter the elements of an array: ");
    for (i = 0; i < n; i++) {
        scanf("%d", &arr[i]);
    }
    for (i = n - 1; i >= 0; i--) {
        printf("%d", arr[i]);
    }
    return 0;
}
```
